6 1. This is a patent infringement action to stop Defendant's infringement of Plaintiff's
7 United States Patent No. 6,115,817 entitled "*Methods and Systems for Facilitating Transmission*
8 *of Secure Messages Across Insecure Networks*" (the "'817 patent"; a copy of which is attached
9 hereto as Exhibit A). Plaintiff is the exclusive licensee of the '817 patent with respect to the
10 Defendant. Plaintiff seeks injunctive relief and monetary damages.

11 **PARTIES**

13 State of Delaware. Plaintiff maintains its principal place of business at 170 Kinnelon Road, Suite
14 13, Kinnelon, New Jersey 07405. Plaintiff is the exclusive licensee of the '817 patent with
15 respect to the Defendants, and possesses the right to sue for infringement and recover past
16 damages.

17 3. Upon information and belief, Defendant is a corporation organized and existing
18 under the laws of the State of Delaware with its principal place of business located at 6 Sylvan
19 Way, Parsippany, NJ 07054 and numerous locations throughout Los Angeles, California.

20 **JURISDICTION AND VENUE**

21 4. This action arises under the Patent Laws of the United States, 35 U.S.C. § 1 *et*
22 *seq.*, including 35 U.S.C. §§ 271, 281, 283, 284, and 285. This Court has subject matter
23 jurisdiction over this case for patent infringement under 28 U.S.C. §§ 1331 and 1338(a).

24 5. The Court has personal jurisdiction over Defendant because: Defendant is present
25 within or has minimum contacts with the State of California and the Central District of California;
26 Defendant has purposefully availed itself of the privileges of conducting business in the State of
27 California and in the Central District of California; Defendant has sought protection and benefit
28 from the laws of the State of California; Defendant regularly conducts business within the State of

1 California and within the Central District of California; and Plaintiff's causes of action arise
2 directly from Defendants' business contacts and other activities in the State of California and in
3 the Central District of California.

4 6. More specifically, Defendant, directly and/or through authorized intermediaries,
5 ships, distributes, offers for sale, sells, and/or advertises (including the provision of an interactive
6 web page) its products and services in the United States, the State of California, and the Central
7 District of California. Upon information and belief, Defendant has committed patent
8 infringement in the State of California and in the Central District of California, has contributed to
9 patent infringement in the State of California and in the Central District of California, and/or has
10 induced others to commit patent infringement in the State of California and in the Central District
11 of California. Defendant solicits customers in the State of California and in the Central District of
12 California. Defendant has many paying customers who are residents of the State of California
13 and the Central District of California and who each use each of the respective Defendant's
14 products and services in the State of California and in the Central District of California.

15 7. Venue is proper in the Central District of California pursuant to 28 U.S.C. §§ 1391
16 and 1400(b).

17 **COUNT I – PATENT INFRINGEMENT**
18

19 8. The '817 patent was duly and legally issued by the United States Patent and
20 Trademark Office on September 5, 2000, after full and fair examination for systems and methods
21 for secure messaging on an insecure network. Plaintiff is the exclusive licensee of the '817 patent
22 with respect to the Defendants, and possesses all rights of recovery under the '817 patent with
23 respect to the Defendants, including the right to sue for infringement and recover past damages.

24 9. Upon information and belief, Defendant has infringed and continues to infringe
25 one or more claims of the '817 patent by making, using, providing, offering to sell, and selling
26 (directly or through intermediaries), in this district and elsewhere in the United States, secure
27 messaging systems and methods that embody the patented invention, including via the website
28

1 https://www.avis.com. Upon information and belief, Defendant directs or requires users to
2 transmit and/or receive secure messages related to personal information via the secure online
3 login, registration and/or use of the website and/or messaging systems and methods on their
4 website. Upon information and belief, Defendant has also contributed to the infringement of one
5 or more claims of the '817 patent, and/or actively induced others to infringe one or more claims
6 of the '817 patent via their website, in this district and elsewhere in the United States.

7 10. Defendant's aforesaid activities have been without authority and/or license from
8 Plaintiff.

9 11. Plaintiff is entitled to recover from the Defendant the damages sustained by
10 Plaintiff as a result of the Defendant's wrongful acts in an amount subject to proof at trial, which,
11 by law, cannot be less than a reasonable royalty, together with interest and costs as fixed by this
12 Court under 35 U.S.C. § 284.

13 12. Defendant's infringement of Plaintiff's exclusive rights under the '817 patent will
14 continue to damage Plaintiff, causing irreparable harm for which there is no adequate remedy at
15 law, unless enjoined by this Court.

16
17 **JURY DEMAND**

18
19 13. Plaintiff hereby requests a trial by jury pursuant to Rule 38 of the Federal Rules of
20 Civil Procedure.

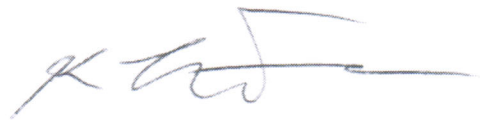

21 **PRAYER FOR RELIEF**

22 Plaintiff respectfully requests that the Court find in its favor and against Defendant, and
23 that the Court grant Plaintiff the following relief:

- 24 A. An adjudication that one or more claims of the '817 patent have been infringed,
25 either literally and/or under the doctrine of equivalents, by Defendant and/or by
26 others to whose infringement Defendant has contributed and/or by others whose
27 infringement has been induced by Defendant;
28

- 1 B. An award to Plaintiff of damages adequate to compensate Plaintiff for the
2 Defendant's acts of infringement together with pre-judgment and post-judgment
3 interest;
4
5 C. That, should Defendant's acts of infringement be found to be willful from the time
6 that Defendant became aware of the infringing nature of its actions, which is the
7 time of filing of Plaintiff's Original Complaint at the latest, that the Court award
8 treble damages for the period of such willful infringement pursuant to 35 U.S.C. §
9 284;
10
11 D. A grant of permanent injunction pursuant to 35 U.S.C. § 283, enjoining the
12 Defendant from further acts of (1) infringement, (2) contributory infringement, and
13 (3) actively inducing infringement with respect to the claims of the '817 patent;
14
15 E. That this Court declare this to be an exceptional case and award Plaintiff its
16 reasonable attorneys' fees and costs in accordance with 35 U.S.C. §285; and
17
18 F. Any further relief that this Court deems just and proper.

18 Respectfully submitted,
